# INTRODUCTION

Our decorcera handmade decorative garden products are made by skilled crafts using traditional method passed through generations. Each pot is unique in appearance and signature.

Firing of our pottery is done on very high temperature (1000-1200 C) Which makes our pottery guaranteed frost resistant, durable and gives unique Natural blonde (Yellow/whitish) colour.

A Special treatment can also done pre-firing on the pots to give it an antique brown finishing additionally any water based colour can also be applied.

The rich clay of region Indus river delta belt is highly porous and allows Plants to breathe which are ideal conditions for their optimum nourishment. Our economical craftsmanship allows us to manufacture our pottery very cost effectively.

To the present date, we have already exported more than 2,000,000 pottery items and innovated over 500 designs.

We never compromise on quality and only provide selected high quality pottery.

# SIZES & PACKING QUANTITY

1. Ø 38cm, set of 4
